Web Content Editor: 3/12 - 12/12
Office of the Chief Technology Officer (OCTO) through CSZ Net, Inc.
200 I St., SE Washington, DC 20003
Project consisted of migrating DC.gov websites from DSF to Drupal 7 platform. Worked with several agencies simultaneously

to migrate different websites. Migrations included new look and feel already developed by OCTO. Managed client expectations, explained technical concepts to non-technical people, assisted the agency to develop new information architecture by creating

sitemap, forms, content preparation, content migration, agency site editorial review, photo resizing, and agency site launch.

Worked with business analyst on the development of the site architecture. Followed universal standards for W3C and accessibility

Web Content Accessibility Guidelines 2.0 AA (WCAG 2.0AA). Tested websites for Section 508 standards using HighSoftware and JAWS.

Samples:

- Office of Chief Financial Officer: http://www.cfo.dc.gov/
- Office of Metropolitan Police Department: http://www.mpdc.dc.gov/
- Office of Risk Management: http://www.orm.dc.gov
