santhosh reddy

Sr. PHP/ Drupal Developer - American Express

NY
sreddy23095_axd@indeedemail.com - (925) 480-7677

• Around 08 years of experience in PHP, LAMP, WAMP, Drupal, WordPress, Zend, CodeIgniter, CakePHP Frameworks.
• Excellent experience over Drupal 4.x, 5.x, 6.x, 7.x, 8x.
• Experienced in developing web-based applications using PHP 5.x, MySQL, XML, CSS, HTML, DHTML, XHTML, JavaScript, jQuery and AJAX Technology.
• Experienced in developing websites using HTML 4.0/5.0, CSS, CSS3, JavaScript, JQuery, Ajax and JSON.
• Designed the web layouts using Adobe Photoshop.
• Experienced in developing event driven applications using AJAX, JSON and XML.
• Incorporated the table less design methodology using CSS3 that follows W3C standards.
• Advanced knowledge of HTML5, CSS3, XML, DHTML, JavaScript including JQuery, prototype libraries, Webkit.
• Experienced in developing application using 3-tier architecture (i.e. Presentation Layer, Business layer and Data access Layer)
• Extensive experience with multiple technologies like Python 2.7, 3.2, 3.4, PHP, Shell Scripting, Java, C, Perl, and VBA.
• Strong expertise in development of web based applications using Python, Django, HTML, XML, Angular JS, CSS3, DHTML, JavaScript, JSON and JQuery.
• Excellent knowledge in Twitter Bootstrap and Responsive Design
• Experience on working with CSS Backgrounds, CSS Layouts, CSS Positioning, CSS Animations, CSS Text, CSS Borders, CSS Margin, CSS Padding, and CSS Table.
• Effective skills of working with Eclipse IDE and MVC.
• Experience in building frameworks in Python for Test Automation.
• Solid experience in Relational Database Management System (RDBMS) design, programming, normalization and security administration.
• Experienced in Drupal tool like View Tools, UberSearch, Drupal Theme Viewer to create powerful and flexible web applications.
• Experienced in third party payment gateway (PGP) with PHPscripting.
• Expertise in deploying applications using Apache HTTP server, Tomcat server and Jboss server.
• Expertise in web applications that required cross browser compatibilities like Chrome, Safari, Firefox, Internet Explorer and Opera.
• Extensively used the backbone.js, Angular js, reactjs frame works, JSON and JavaScript frameworks jQuery.
• Excellent experience in implementing various design patterns including MVC
• Experienced on Installation, Integration and Configuration of third party tools, Content Management System (CODEIGNITER, Smarty)
• Developed custom Drupal Theme to effectively address business requirements.
• Expertise in all PHP-related projects technical aspects like design, development, project documentation and product maintenance.

WORK EXPERIENCE

Sr. PHP/ Drupal Developer

American Express - New York, NY - 2015-03 - Present

Responsibilities

• Coding in LAMP (Linux, Apache, MySQL, and PHP) environment.
• Developing PHP, HTML, CSS, JavaScript, JQuery and AngularJS ecommerce application pages according to project requirements. Create custom Drupal modules using PHP, MySQL and JavaScript and configure required contributed Modules. Worked on HTML, HTML5, JavaScript, CSS and their integration within a PHP environment.
• Performed web development, template development, testing, debugging, integration, documentation and deployment
• Maintained and supported existing applications built on the Drupal8 platform ensuring site availability
• Python/Django based web application, Postgres sql DB and integrations with 3rd party email, messaging, storage services.
• Engaged in incident management, problem solving and solution implementation
• Designed and developed new web applications, forms, content management workflows leveraging Drupal
• Involved in Installing, theming, customizing Drupal systems, including Drupal 7 and Drupal 8.
• Developed a fully automated continuous integration system using Git, Gerrit, Jenkins, MySQL and custom tools developed in Python and Bash
• Created Drupal modules and the extended modules as needed
• Experience working with APIs, integrating with external web services including REST, XML or JSON
• Customized dashboard development for accessing easy user interface using front end tools such as Ajax, Jquery, Javascript etc.
• Used PHP framework such asCake, Zend and Zend 2
• Developed various sections using AngularJS, reactjs, HTML, CSS, Velocity, Ajax, Json and Spring web service
• Worked in an SVN/GIT managed environment.
• Worked on Stack Zend PHP, Apache Web Server, SVN, Oracle, JavaScript, jQuery
• Worked on HTML5/CSS and jQuery in a Drupal based CMS environment
• Worked on analysis, design, development and implementation of web applications using PHP, Zend Framework, Oracle and MySQL
• Worked on an open-source CMS Drupal to build website using Drupal
• Heavily used HTML5 and CSS3 and applied CSS frameworks such as Bootstrap
• Implemented AJAX and JQuery on Front-End to make the web page more dynamic.
• Dynamic content management at client side using AJAX, JavaScript, DHTML.
• Involved in integration testing, functional testing and UI testing
Environment: Drupal 7/6/8, REST API, Oauth, PHP 4/5, HTML 4/5, XHTML, CSS, AJAX, JavaScript, MySQL, Perl, Python, Windows, Apache, MVC Frame Work, jQuery, CSS.

Sr. Drupal/ PHP Developer
McKesson Health Services   -   Rochester, MN - 2013-04 - 2015-02

Responsibilities

• Worked on PHP to integrated the HTML Pages with database in order to get the data and populate in the front end UI Screen
• Implemented AJAX and JQUERY on front-end to make the web page more dynamic.
• Designed theme using HTML/XHTML, CSS.
• Created Front end UI for Service Reporting System using Drupal.
• Worked with YUI library Designed and developed multiuser, 3-tier MVC web-application (Apache, PHP5, Oracle11g, jQuery, jQueryUI, Javascript /JSON) for describing whole infrastructure.
• Worked with LAMP stack and open source software

• Used javascripct frameworks like NODE.JS, ANGULAR.JS
• Responsible for website maintenance client websites on a daily basis involving HTML, CSS, Drupal
• Involved in release into Production, Development, QA, and Staging.
• Optimized sites for usability, search engines and accessibility, and updated existing sites and content management systems.
• Made and implemented a huge variety of websites and web apps using PHP, JavaScript, HTML5, CSS3, MySQL
• Knowledge of modern web technologies and techniques (Node.JS, SASS, LESS, Responsive Design, etc.)
• Used Python and Django creating graphics, XML processing, data exchange and business logic implementation
• Experience with version control systems like Git, SVN, etc. Experience working with CI/CD tools like Jenkins, Travis, etc.
• Worked on coding optimized SQL queries, PL/SQL Stored Procedures, Functions, Packages and Triggers on databases like MySQL, MS SQL and Oracle
• Use of PHP and Zend framework.
• Used HTML, CSS, javascript, jquery on client side.
• Implemented Jquery code to create various design sliders on Home pages of websites.
• Involved in the development using Drupal and PHP
• Used Jquery for creating different menus and dialog boxes and also used different jquery plugins for calendar, calculator and printing options.
• Worked on Stack Zend PHP, Apache Web Server, SVN, Oracle, JavaScript, jQuery
• Created and implemented a wide variety of websites and web applications using PHP, JavaScript, HTML5, CSS3, MySQL
• Developed single paged web based apps using "backbone.js".
• Build AJAX pages using PHP to display current server time
Environment: Drupal, JQuery, Zend 2, PHP, CSS, Python, MySQL, Google map api V3, Html, CSS, JavaScript

Sr. PHP/Drupal Developer
BMO Harris Bank - Chicago, IL - 2011-11 - 2013-03

Responsibilities

• Implemented business logic with PHP scripts to interface with a MySQL database.
• Maintained SQL Server Database (with PDO_SQLSRV)
• Implemented front-end layout and behavior with HTML5, JavaScript, AngularJS, Jquery, JSON and Bootstrap
Responsible for the development of web applications and scripts utilizing JavaScript, HTML, PHPand MySQL
• Worked on Linux and UNIX platforms. Also worked with XML, XSD, and RESTful APIs
• Integrating REST web services PHP based API's into the site.
• Involved in database design, maintenance and administration
• Coded dynamic and browser compatible UI web pages using JavaScript, CSS3, HTML5, JQuery, Ajax and responsive design in MVC environment.
• Responsible for creating efficient design and developing User Interaction screens using HTML5, CSS3, JavaScript, jQuery, AJAX and JSON.
• Developed various sections using AngularJS, HTML, CSS, Velocity, Ajax, Json and Spring web service
• Wrote Python scripts to parse XML documents and load the data in database.
Generated property list for every application dynamically using Python.
• Developed user interface using PHP5, Ajax, JQuery, HTML, CSS, javascript, LAMP
• Built custom modules and libraries in Drupal.
• Worked with Drupal modules, theming, distributions & content management
• Involved with both maintaining / updating & developing new client websites

- Involved with Quality assurance of own work, code testing, cross browser testing, etc.
- Involved in Website Code Optimization
- Worked on HTML, CSS, PHP, ASP, MySQL, MSSQL, Java script / jQuery, Action Script 2/3
- Worked on Git Hub
- Wrote concise, clean, modular CSS, HTML, Drupal and PHP codes
- Worked on Drupal to create custom widgets
- Interact with the front end web development (HTML, CSS, JavaScript)
- Develop site themes with LESS or SASS and traditional CSS
- Maintaining SQL server database and updating PHP script.
- Using three kind of database Granite Database, Oracle, MYSql.

Environment: PHP, HTML, JavaScript, MYSQL, SVN, Drupal, Dreamweaver MX 2004, PHPMYADMIN, Visual Source Safe, MS Excel, jQuery Zend Framework, JSON, XML, Python

PHP Developer
MPhasis   -   Bangalore, Karnataka   -   2008-08 - 2011-10

Responsibilities

- Involved in developing interactive web applications using a dynamic scripting language like PHP, Ruby, and Python& Perl.
- Managed front end and applications for Tomcat and Apache web servers to support MySQL database
- Worked with the Foundation framework and with AJAX based sites/web applications.
- Developed Jquery plugin for accordions and customized them meeting the business requirements.
- Created Images, Logos and Icons that are used across the web pages using Adobe Flash and Photoshop.
- Used Linux command line environment and other tools related to the LAMP stack.
- Maintained SQL Server Database (with PDO) for Monitoring Module from Solar winds application.
- Developed internal auxiliary web apps using Python Flask framework with CSS / HTML framework.
- Implemented front-end layout and behavior with HTML5, JavaScript, AngularJS, Jquery, JSON and Bootstrap Worked on theme layer for Drupal
- Developed a user friendly secondary back end to update and maintain multiple Magento e-commerce installs using PHP, CSS, HTML, MYSQL and MSSQL.
- Used HTML, CSS, javascript, jquery on client side.
- Back end development and maintenance of websites using PHP and MySQL.
- Efficiently developed code for different modules by using Oracle SQL, PLSQL and Shell scripting
- Used advanced level of HTML5, JavaScript, CSS3 and pure CSS layouts (table less layout)
- Involved with front-end integration projects using various frameworks and HTML5, SAAS, CSS3, JavaScript, DOM, and Ajax technologies and methodologies.
Environment: Magento, PHP, MySQL, LAMP, Zend, Javascript, AJAX, Jquery, CSS3, XHTML, HTML5, Cake JQuery, Code ignitor, Html 5, XML, XSD, SAAS, PL/SQL, Photoshop, UNIX
