Synopsis

I have a strong technical and leadership background, excel at communication, and function well in promoting and coordinating teamwork across disparate business and functional areas.

Core Competencies

System Administration (Linux)	★★★★☆	Web Development (LAMP, OSS)	★★★★★
WordPress	★★★★★	Back-end Dev (PHP, CodeIgniter)	★★★★★
HTML, CSS, JavaScript	★★★★★	Cloud Computing	★★★★☆

Experience

Simply Design Group (Remote) – Lead Web Developer (Dallas, TX)   **September 2016 to October 2017**

- Develop custom WordPress sites and solutions for remote clients, including custom WordPress plugins, speed and mobile-responsiveness analysis, search/website/code optimization and solution recommendation.
- Setup and configure shared and cloud instances for clients hosting externally.
- Technologies: LAMP (PHP), jQuery, Bootstrap, WordPress, Adobe Creative Suite, CSS, WP Engine, Linux

Oceus Networks (Contract) – Web Developer (Plano, TX)   **November 2013 to June 2016**

- Involved in the design, development, coding, testing, and debugging of software used to maintain and monitor wireless LTE equipment at government and military installations.
- Technologies: Linux, Apache, PHP, MySQL/MariaDB, jQuery UI, VMware, Node.js, Git, CodeIgniter.

Beauty & Hair Products Int'l – Data Analyst/Web Developer (Dallas, TX)   **October 2012 to October 2013**

- Data analyst and web developer for wigs.com and hairextensions.com. Act as intermediary among marketing, creative and IT by scheduling and prioritizing requests.
- Technologies: PHP, jQuery, LAMP, MySQL, SQL Server, Magento, WordPress, Amazon AWS, Mac OS X.

Bronze Company – Web Developer (Appleton, WI)   **November 2009 to September 2012**

- Migrate existing web properties from third-party LAMP hosting to internal hosting solution.
- Setup, configure and maintain Amazon cloud servers used to host LAMP web sites.
- Technologies: Linux (CentOS, Amazon AMI), Apache, MySQL, PHP, jQuery, Joomla, WordPress, Amazon AWS, Photoshop.

WEC Energy Group – Sr. Web Developer (Green Bay, WI)   **August 2006 to October 2009**

- Develop, modify and maintain web sites (both front and back-end) for regional clients; assist other developers, make estimates and recommendations as needed.
- Technologies: LAMP (PHP), jQuery, Bootstrap, Magento, WordPress, CodeIgniter, Adobe Creative Suite, OS X

Education

University of Wisconsin – Eau Claire   **Graduated: December 2001**

Bachelor of Business Administration in Management Information Systems (MIS)
